RE: Application of the City of San Antonio, Acting By and Through City Public Service Board (CPS Energy) to Amend its Certificate of Convenience and Necessity for the Proposed Omicron 138 kV Transmission Line Project in Bexar County, Texas

PUBLIC UTILITY COMMISSION OF TEXAS (PUC) DOCKET NO. 58276

Dear «Formal»:

As part of our efforts to keep you and the public informed about electric transmission projects, we want you to know the City of San Antonio, acting by and through City Public Service Board (CPS Energy) is requesting approval from the Public Utility Commission of Texas (PUC) to amend its Certificate of Convenience and Necessity (CCN) to construct the Omicron 138-kV Transmission Line Project in Bexar County.

The proposed transmission line will connect the existing Cagnon to Howard 138 kV transmission line in west Bexar County to a new Omicron Substation located approximately 0.35 miles west of the intersection of Farm to Market Road (FM) 1957 (also known as Potranco Road) and State Highway (SH) 211. The entire project will be about 5 to 8 miles in length and is estimated to cost approximately \$40 million to \$65 million (including substation costs), depending upon the final route chosen by the PUC.

If you have questions about the transmission line, you can call Oscar Luevanos at 210-353-6673. The descriptions of the proposed routing alternatives and a map showing the proposed alternative routes are enclosed for your convenience.

The CCN application, including detailed routing maps illustrating the proposed transmission line project, and project area, may be reviewed on the project website at <https://www.cpsenergy.com/en/about-us/new-infrastructure/omicron.html> and at:

- CPS Energy, 500 McCullough, San Antonio, Texas 78215
- Potranco Branch Library, 8765 TX-151, San Antonio, Texas 78245

All routes and route segments included in this notice are available for selection and approval by the Public Utility Commission of Texas.

For your information, the enclosed brochure entitled “Landowners and Transmission Line Cases at the PUC” provides basic information about how landowners may participate in this docket, and how they may contact the PUC. The brochure includes sample forms for making comments and for making a request to intervene as a party in this docket. The only way to fully participate in the PUC’s decision on where to locate the transmission line is to intervene in the docket. It is important for an affected person to intervene because the utility is not obligated to keep affected persons informed of the PUC’s proceedings and cannot predict which route may or may not be approved by the PUC.

Requests for intervention should be filed electronically and requestors will be required to serve the request on other parties by email. Therefore, those wishing to intervene should include an email address on the intervention form. Instructions for electronic filing via the “PUC Filer” on the Commission’s website can be found here: <https://interchange.puc.texas.gov/filer>. Instructions for using the PUC Filer are available at http://www.puc.texas.gov/industry/filings/New_PUC_Web_Filer_Presentation.pdf. Once a filer obtains a tracking sheet associated with the filing from the PUC Filer, they may email the tracking sheet and the document they wish to file to: centralrecords@puc.texas.gov. For assistance with electronic filings, please contact the Commission’s Help Desk at (512) 936-7100 or helpdesk@puc.texas.gov. You can review materials filed in this docket on the PUC Interchange at: <http://interchange.puc.texas.gov/>.

In addition to the contacts listed in the brochure, interested persons may call the PUC’s Customer Assistance Hotline at (888) 782-8477. Hearing- and speech-impaired individuals with text telephones (TTY) may contact the PUC’s Customer Assistance Hotline at (512) 936-7136 or toll free at (800) 735-2989. If a person wishes to participate in this proceeding by becoming an intervenor, the deadline for intervention in the proceeding is July 28, 2025, and the PUC should receive an electronic filing or letter requesting intervention by that date.

While the preferred method for requesting intervention is to submit a request electronically, if a person is unable submit an electronic request, they can still request intervention by mailing 10 copies of the request to:

Public Utility Commission of Texas
Central Records
Attn: Filing Clerk
1701 N. Congress Ave.
P.O. Box 13326
Austin, Texas 78711-3326

Persons who wish to intervene in the docket must also mail or email a copy of their request for intervention to all parties in the docket and all persons that have pending motions to intervene, at or before the time the request for intervention is mailed to the PUC. In addition to the intervention deadline, other important deadlines may already exist that affect participation in this docket. The enclosed brochure explains how an interested person can access these filings.

Sincerely,

Oscar Luevanos, PE
