RE: Application of the City of San Antonio, Acting By and Through City Public Service Board (CPS Energy) to Amend its Certificate of Convenience and Necessity for the Proposed Omicron 138 kV Transmission Line Project in Bexar County, Texas

PUBLIC UTILITY COMMISSION OF TEXAS (PUC) DOCKET NO. 58276

Dear Ms. Zebehazy:

On Friday, June 27, 2025, the City of San Antonio, acting by and through City Public Service Board (CPS Energy) is requesting approval from the Public Utility Commission of Texas (PUC) to amend its Certificate of Convenience and Necessity (CCN) to construct the Omicron 138-kV Transmission Line Project in Bexar County.

As you are aware, the Commission's CCN application requires that CPS Energy provide for review and comment a copy of the project environmental assessment (EA) to Texas Parks and Wildlife Department (TPWD) within seven days after the application is filed. Accordingly, enclosed with this letter is a copy of the EA prepared for the referenced project as well as a complete copy of the CCN application filed by CPS Energy at the Commission. The CCN application also requires that a copy of this transmittal letter be included with the project application. You will find a copy of this letter included as Attachment 10 to the filed Application.

Under the traditional CCN process, TPWD typically provides the Commission Staff with comments about the application. CPS Energy would also appreciate receiving a copy of any comments TPWD may choose to provide to Commission Staff. You may send those comments to Oscar Luevanos (CPS Energy) at 500 McCullough Ave., San Antonio, Texas 78215. Of course, CPS Energy reserves the right to inquire into the basis of any comments or recommendations TPWD may choose to submit in this case, but I am certain the appropriate arrangements can be made for that inquiry if the necessity arises.

If you have any questions about the EA, please feel free to contact Oscar Luevanos (CPS Energy) at (210) 353-6673.

Ms. Zebehazy
