RE: Application of the City of San Antonio, Acting By and Through City Public Service Board (CPS Energy) to Amend a Certificate of Convenience and Necessity for the Proposed Ranchtown to Talley Road 138 kV Transmission Line Project In Bexar And Medina Counties

PUBLIC UTILITY COMMISSION OF TEXAS (PUC) DOCKET NO. 57206

Dear Ms. Zebehazy:

On Friday, November 01, 2024, the City of San Antonio, acting by and through City Public Service Board (CPS Energy) filed with the Public Utility Commission of Texas (Commission) the above-referenced application to amend its Certificate of Convenience and Necessity (CCN) to construct the Ranchtown to Talley Road 138 kV Transmission Line Project in Bexar and Medina Counties, Texas.

As you are aware, the Commission's CCN application requires that CPS Energy provide for review and comment a copy of the project environmental assessment (EA) to Texas Parks and Wildlife Department (TPWD) within seven days after the application is filed. Accordingly, enclosed with this letter is a copy of the EA prepared for the referenced project as well as a complete copy of CPS Energy's CCN application filed at the Commission. The CCN application also requires that a copy of this transmittal letter be included with the project application. You will find a copy of this letter included as Attachment 11 to the filed Application.

Under the traditional CCN process, TPWD typically provides the Commission Staff with comments about the application. CPS Energy would also appreciate receiving a copy of any comments TPWD may choose to provide to Commission Staff. You may send those comments to Antonio DeMendonca (CPS Energy) at 500 McCullough Ave., San Antonio, Texas 78215. Of course, CPS Energy reserves the right to inquire into the basis of any comments or recommendations TPWD may choose to submit in this case, but I am certain the appropriate arrangements can be made for that inquiry if the necessity arises.

Finally, CPS Energy is pleased to offer TPWD staff a briefing of the CCN application and the accompanying EA. To that end, I would be happy to arrange a visit between CPS Energy and you and your staff at your earliest convenience. If you have any questions about the EA, please feel free to contact Antonio DeMendonca (CPS Energy) at 210-353-5318 or me at (512) 236-2310.

Sincerely,

Kirk D. Rasmussen
